SELECTMEN'S REPORT

To the taxpayers, the voters and residents of the Town of Danbury:

Valuations and Tax Rates.

It is possible to construe that the raising of valuations is only the problem of making certain changes in figures of the Town records. We assure you this is only a minor part to the extensive detailed requirements of a problem of this kind.

The State statutes require, "The selectmen shall appraise all taxable property at its full and true value in money as they would appraise the same in payment of a just debt due from a solvent debtor, and shall receive and consider all evidence that may be submitted, to them relative to the value of property the value of which cannot be determined by personal examination." The "True and full value" is consistently explained to give "value" the meaning of a sale or market value.

It can be easily conceived, that in order to be nearer to today's valuations and to comply with the above quoted statute that all property had to be revalued. The increase to expenditures to comply with both the State statute and the Town's voted increase for Town operations also demanded further increase in revenue.

Inventories.

We feel some mention should be made to call to your attention the importance of the inventories mailed to you each year. For your own protection these inventories are to be returned to the Selectmen's office properly filled out and signed. Your failure to return your inventory may have a tendency to eliminate any reconsideration of your tax assessment by the State Tax Commission.

Town Road Aid (T.R.A.)

The T.R.A. appropriation was expended to complete North Road project, thereby offering an asphalt road from the Twomey residence to Route No. 4. Further work through this State aid permitted a small amount of work of the next proposed project on the Walker - Tupper road in South Danbury. When completed this will no doubt reduce the cost of road maintenance, both summer and winter.

The increase of the State Grant for the repair of Class V highways (Duncan Fund) was used toward the expense in reconstructing of 4 bridges. The customary seasonal inspection disclosed that entire new construction of these bridges was necessary to assure continued safety.

Cemeteries.

By an approved vote in the year 1949, the sum of $150.00 was appropriated for the repairs and painting of the Baptist Cemetery fence. At the end of year 1954 the expenditures reduced the original appropriated amount leaving a balance of $95.75 retained by Town Treasurer.

This fund was increased by a vote of an additional amount of $150.00 at meeting of March 1959, thereby increasing the total sum allotted toward this project to $245.75 also retained by Town treasurer.

At the meeting of last March the cost of replacement of a new fence was explained and a vote of approval for an increase of an additional $104.25 was approved thereby creating a total appropriation to an amount of $350.00 for cost of purchase of the accepted CEDAR FENCE. Any additional expense that might be incurred was to be taken care of from any balance of the appropriation of $100.00 allotment for cemetery care. The board is pleased to report this project was completed prior to last Memorial Day.

Your attention is called to the Article regarding the approval of the appointment of a Cemetery Agent or Sexton to care for and maintain proper conditions and appearances of

our Cemeteries. Your suggestions as to an interested and capable person will be most welcome.

Town Hall.

We are offering for your consideration and approval an additional increase in the appropriation for the maintenance of the Town Hall.

Repairs such as new sills, flooring and roof repairs should be made this year. These repairs we deem necessary to avoid greater expense at a later date. It is impossible to state at this time the approximate cost for these repairs. Repairs of this nature are usually accepted on a material and labor basis only.

We hope to have a good representation at our Town Meeting, to promote your ideas for further continued progress of "our town."

FRANK CLEWS, Treasurer

DANBURY VOLUNTEER FIRE DEPARTMENT

The Commissioners and Chief of the Danbury Volunteer Fire Department wish to extend our appreciation and sincere thanks to all Officers, Members, all Committees and residents of the town who helped to maintain and support the Fire Department this past year of 1960.

This past year, even with the rising costs of material, parts etc., we tried hard to operate and maintain the Department and keep within the Five Hundred ($500.00) Dollar appropriation that you taxpayers so kindly voted for us at last town meeting.

One major repair job this year was overhauling our 250 gallon Gorham-Rupp Forestry Pump. Parts cost was twenty some odd dollars and the cost of labor was saved by the boys in the Department doing the repairs.

At the latter end of this year the Department received as a gift from Mr. Hicks of the Wheeler-Hicks Funeral Home of Bristol a stretcher, on wheels and including mattress. The Department wishes to have this stretcher available to anyone in town in case of an emergency and the following men of the Department who have Station Wagons have volunteered to be at service in case of such an emergency.

For a Hospital Emergency Case Call:

Arthur Ranney ..... Porter 8-2542
Myrl C. Phelps ..... Porter 8-2524
Zoal Tangway ..... Porter 8-2481
James Fifield ..... Porter 8-2346
Earl Brown

We feel greatly indebted to Mr. Hicks for this generous gift and the Department wishes to take this opportunity to extend to him our sincere thanks.

This year we are again putting an article in the Warrant asking the taxpayers for the sum of $500.00 to operate and maintain the Fire Department. We sincerely hope this will meet with the taxpayers' approval.

With many thanks for all the support and loyalty the public has given us in the past.

Don't forget *In Case of Fire — Call Porter 8-2513* or *Porter 8-2571* or *Porter 8-2573.*

PREVENTION IS YOUR BUSINESS

Carelessness, *human carelessness,* causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed - all because *many* are *careless* with fire in and near woodland. This can be remedied. *You* can put an end to this shameful waste! *Prevention* is *your* business!

You, whether *you* be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First - by setting a good example *yourself* - being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second - by using *your* individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for *you* and for them.

1. Before burning, secure a permit from your local forest fire warden - the law requires it.

2. Be sure to properly supervise your burning - don't leave it.

3. Make certain your fire, camp or debris, is *dead out* before leaving it.

4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles - make sure they are out - use your ash tray.

5. Don't burn at home - use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires, 4; number of acres burned, 2; number of permits issued, 38.

GERALD GROSS
District Chief

WILLIAM BROWN
Forest Fire Warden

PUBLIC HEALTH NURSE

During the year of 1960 I have made nursing visits to all age groups with the exception of school children. This includes the regular program of health supervision and referrals from the various doctors. In addition, the tuberculosis case load for the district has now been added to the general case load, as the nurse employed by the TB Association retired last summer.

The response to the fluoride program in June was good. A total of 18 preschool children attended as compared with 13 in 1958. Other similar programs were held for the towns of Andover, Grafton, and Hill. Total attendance of preschool children from all five towns was 127. It would seem that parents are well aware of the importance of early dental care for their children.

A survey to evaluate the immunization status of infants and preschool children was done by the local Child Health Committee. It was decided to hold a series of immunization clinics early in 1961 to help increase the number of children who are protected against diptheria, whooping cough, tetanus, and polio. The immunization clinics in Canaan and Bristol are also open to the townspeople of Danbury.

In April of the past year the office was moved to a new location at 336 Central St. Office hours from 8:30 to 9:30 every morning and Friday afternoon are held for the purpose of holding interviews or receiving phone calls from those who have matters to discuss relative to health. This schedule will be in effect for 1961.

Respectfully submitted,

NEL GETCHEL,
Public Health Nurse

10. To see if the school district will authorize the trustees of the trust funds to make available to the school board as much of the accumulated interest of the school building fund as is necessary (estimated at $300.00) to hire an architect to draw plans and specifications for a new elementary school and to secure a cost figure from a professional estimator.
11. If Article No. 10 is in the affirmative to see if the district will vote to adjourn this meeting until May 6, at 7:30 P.M. at which time the other articles in this warrant may be discussed and voted upon.

15. To authorize the School Board to accept in the name and in behalf of the District any gifts of real estate which may be offered to the District as a site for such new elementary school, and any gifts of money, services or personal property which may be offered to the District toward the construction or equipment of such new elementary school.

16. To authorize the School Board to make application for and to receive, in the name of the District, such advances, grants-in-aid, or other funds for educational purposes, including schoolhouse construction, as may now or hereafter be forthcoming from the United States or the State of New Hampshire or any agencies thereof.
